INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and Members of City Council
City of Caney City, Texas

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Caney City, Texas, as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Caney City, Texas, as of December 31, 2024, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Caney City, Texas and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Caney City, Texas's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City of Caney City, Texas's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Caney City, Texas's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 14, budgetary comparison information on page 59, and the Texas Municipal Retirement System schedules on pages 60 through 62 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated July 10, 2025, on our consideration of the City of Caney City, Texas's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Caney City, Texas's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Caney City, Texas's internal control over financial reporting and compliance.

- The assets of the City exceeded its liabilities at the close of the most recent fiscal year by \$1,157,606 (Net Position). Of this amount, \$708,0327 (Unrestricted Net Position) may be used to meet the government's ongoing obligations to citizens and creditors in accordance with the City's fund designation and fiscal policies.
- The City's total net position increased by \$127,975.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$497,339. Of this amount, \$447,775 is unassigned and available for use within the City's fund designation and fiscal policies.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$385,108, or 133.46% of the total general fund expenditures.
- The City's outstanding long-term debt decreased by \$38,925.

OVERVIEW OF THE FINANCIAL STATEMENTS

The City's annual report consists of a series of financial statements, notes to those statements, and other supplementary information. The basic financial statements include two kinds of statements that present different views of the City:

- The first two statements are Government-Wide Financial Statements that provide both long-term and short-term information about the City's overall financial status.
- The remaining statements are Fund Financial Statements that focus on individual parts of the government, reporting the City's operations in more detail than the Government-Wide Statements.
 - The Governmental Funds Statements tell how general government services were financed in the short term as well as what remains for future spending.
 - Proprietary Fund Statements offer financial information about the internal service fund used to report activities that provide services to organizations within the City.

The basic financial statements include notes that explain information contained within the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. Figure A-1 (above) shows how the required parts of this annual report are arranged and related to one another.

Figure A-2 (next page) summarizes the major features of the City's financial statements, including the portion of the City's government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

Government-Wide Statements

The Government-Wide Statements report information about the City as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two Government-Wide Statements report the City's net position and how it has changed. Net position, the difference between the City's assets and liabilities, is one way to measure the City's financial health or position.

- Over time, increases or decreases in the City's net position is an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the City, you need to consider additional non-financial factors such as changes in the City's tax base.

The Government-Wide Financial Statements of the City include the governmental activities. The City's basic activities include general government, municipal court, public safety, fire and rescue, sanitation, and highways and streets. Taxes, and fines & forfeitures finance most of these activities.

Fund Financial Statements

The Fund Financial Statements provide more detailed information about the City's most significant funds, not the City as a whole. Funds are accounting devices used by the City to track specific sources and uses of funding for specified activities.

- Some funds are required by State law and by bond covenants.
- The City Council establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The City has one fund type:

- Governmental funds—Most of the City's basic services are included in governmental funds, which focus on (1) how cash and other financial assets can readily be converted to cash flow in and out and (2) the year-end balances that are available for spending. Consequently, the Governmental Fund Statements provide a detailed short-term view that helps you determine the level of financial resources that can be spent in the near term to finance the City's programs. Because this information does not encompass the additional long-term focus of the Government-Wide Statements, we provide additional information at the bottom of the Governmental Fund Statements, or on the subsequent page, that explains the relationship (or differences) between them.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The City's assets exceeded liabilities by \$1,157,606 as of December 31, 2024.

The second largest portion of the City's net position, 37%, or \$424,159, reflects its investments in capital assets (e.g., land, building, equipment, vehicles, improvements, and infrastructure), less any outstanding debt used in acquiring those assets. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be liquidated to repay these liabilities.

CITY OF CANEY CITY'S NET POSITION

| | Governmental Activities | |
|--|-------------------------|--------------|
| | 2024 | 2023 |
| Current and Other Assets | \$ 752,245 | \$ 588,410 |
| Capital Assets | 652,464 | 721,647 |
| Total Assets | 1,404,709 | 1,310,057 |
| Total Deferred Outflows of Resources | 1,745 | 4,168 |
| Current Liabilities | 48,169 | 47,192 |
| Non-Current Liabilities | 192,065 | 230,188 |
| Total Liabilities | 240,234 | 277,380 |
| Total Deferred Inflows of Resources | 8,614 | 7,214 |
| Net Position: | | |
| Invested in Capital Assets, | | |
| Net of Related Debt | 424,159 | 453,233 |
| Restricted | 25,415 | 10,871 |
| Unrestricted | 708,032 | 565,527 |
| Total Net Position | \$ 1,157,606 | \$ 1,029,631 |

A portion of net position, \$24,470, is restricted for municipal court security and technology enhancements along jury and youth diversion funds, in addition \$466 held for retirement of long-term debt and \$479 is restricted for public safety. The remaining balance of unrestricted net position, \$708,032, may be used to meet the government's ongoing obligations to citizens and creditors.

As of December 31, 2024, the City is able to report positive balances in all three categories of net position for the government as a whole. In the prior fiscal year, the City also reported overall positive balances in all three categories of net position.

Analysis of the City's Operations - Overall the City had an increase in net position of \$127,975.

Governmental Activities: Net position for the governmental activities increased by \$127,975. Net position invested in capital assets, net of related debt, decreased by \$29,074 due to depreciation expenses and liquidation of long-term debt being higher than capital asset acquisitions. The remaining change in net position is due to lower-than-expected expenditures.

Total revenues for the governmental activities decreased from the previous year by \$331,837, primarily due to grants and contributions received during the previous year. General revenue decreased \$310,814 during 2024, primarily due to similar activity.

The following table provides a summary of the City's operations for the year ended December 31, 2024.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

Governmental funds - The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unrestricted fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$497,339; of this total amount, \$447,775, constitutes a surplus in unassigned fund balance.

GENERAL FUND BUDGETARY HIGHLIGHTS

In the general fund, the City's original budget planned for no increase in the fund balance on a budget basis. The City did not pass any budget amendments during the fiscal year ending 2024.

Actual revenues in all categories were lower than the final budgeted amounts by a total of \$102,738. Actual expenditures not including transfers were lower than final budgeted amounts by a total of \$205,092.

After considering operating transfers and other financing sources, the City had a favorable variance of \$102,354 where excess revenue generated a surplus for the general funds unassigned fund balance.

CAPITAL ASSETS

The City's investment in capital assets for its governmental and business-type activities as of December 31, 2024, amounts to \$424,159 (net of accumulated depreciation). This investment in capital assets includes land, buildings, equipment, improvements, vehicles, and construction in progress. The total decrease in capital assets for the current fiscal year was \$69,183, or 10.60% and due to depreciation expenditures.

There were no major capital asset additions during fiscal year 2024.

CAPITAL ASSETS AT YEAR-END AND ACCUMULATED DEPRECIATION

| | Governmental Activities | |
|------------------------------------|-------------------------|-------------------|
| | 2024 | 2023 |
| Land | \$ 8,000 | \$ 8,000 |
| Buildings and improvements | 227,322 | 227,322 |
| Infrastructure | 392,799 | 392,799 |
| Machinery and equipment | 76,322 | 76,322 |
| Vehicles | 172,272 | 172,272 |
| Leased equipment | 6,338 | 6,338 |
| Right-to-use software arrangements | 19,797 | 19,797 |
| Accumulated Depreciation | (250,386) | (181,203) |
| Total | <u>\$ 652,464</u> | <u>\$ 721,647</u> |

Additional information on the City's capital assets can be found in Note 1 on page 32 and Note 2 on page 38 in the notes of this report.

DEBT ADMINISTRATION

The City had total debt and other long-term liabilities of \$231,371 as of December 31, 2024. At the end of the current fiscal year, the City did not issue additional debt.

OUTSTANDING DEBT AT YEAR-END

| | Governmental Activities | |
|------------------------------------|-------------------------|-------------------|
| | 2024 | 2023 |
| Certificates of Obligation | \$ 169,400 | \$ 174,000 |
| Notes Payable | 47,437 | 75,210 |
| Net OPEB Liability | 3,066 | 1,882 |
| Leased equipment | 4,383 | 5,532 |
| Right-to-use software arrangements | 7,085 | 13,672 |
| Total | <u>\$ 231,371</u> | <u>\$ 270,296</u> |

During the fiscal year, the City's long-term debt decreased by \$38,925, or 16.82%. The decrease was primarily due to the following:

- Annual debt principal payments made on Certificates of Obligation.
- Annual debt principal payments made on notes payable.
- Annual debt principal payments made on right-to-use software arrangements.

Additional information on the City's long term-debt can be found in note 2 on pages 39 through 43 in the notes of this report.

Notes to the Financial Statements

CITY OF CANEY CITY, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2024

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General Statement

The City of Caney City, Texas (City) was incorporated in 1969 and operates under the laws of the State of Texas as a Type B General Law Municipality. The City operates under a mayor/council form of government with the mayor and (5) council members elected at large. The financial statements of the City have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Boards (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The accounting and reporting framework and the more significant accounting principles and practices of the City are discussed in subsequent sections of this Note. The remainder of the Notes is organized to provide explanations, including required disclosures, of the City's financial activities for the fiscal year ended December 31, 2024.

Blended Component Unit

The financial statements of the City include all funds and other organizations for which the City is financially accountable. Financial accountability is determined on the basis of appointment of a voting majority of the respective governing board, imposition of will, financial benefit or burden and financial accountability as a result of fiscal dependency.

The Caney City Economic Development Corporation, Inc. was formed in 2011, and is governed by a seven-member board of directors, whom are appointed by the City's council members. For financial reporting purposes, the Caney City Economic Development Corporation, Inc. has been presented as a blended component unit of the City and is reported as a Special Revenue Fund. Activities are funded by the revenues generated by the one-quarter cent sales tax. The Caney City Economic Development Corporation, Inc. does not issue separate financial statements.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information on all of the non-fiduciary activities of the primary government. Governmental activities include programs supported primarily by taxes and other intergovernmental revenues. Business-type activities include operations that rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or identifiable activity is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or identifiable activity.

CITY OF CANEY CITY, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2024

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Government-Wide and Fund Financial Statements - continued

Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or identifiable activity and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or identifiable activity. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Major individual governmental funds are reported as separate columns in the fund financial statements.

Interfund activities between governmental funds appear as due to/due froms on the governmental fund balance sheet and as other resources and other uses on the governmental fund statement of revenues, expenditures and changes in fund balance. All interfund transactions between governmental funds are eliminated on the government-wide statements.

The fund financial statements provide reports on the financial condition and results of operations for governmental fund categories. The City considers some governmental funds major and reports their financial condition and results of operations in a separate column.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

CITY OF CANEY CITY, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2024

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Measurement Focus, Basis of Accounting and Financial Statement Presentation - continued

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The City considers all revenues available if they are collectible within 60 days after year-end.

Revenues from local sources consist primarily of taxes. Tax revenue and revenues received from the State are recognized under the "susceptible to accrual" concept, that is, when they are both measurable and available. The City considers them "available" if they will be collected within 60 days of the end of the fiscal year. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

The City applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless these pronouncements conflict or contradict GASB pronouncements. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the fund Statement of Net Position. The fund equity is segregated into invested in capital assets net of related debt, restricted net position, and unrestricted net position.

The City reports the following major governmental funds:

General Fund is the City's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources, as they are needed.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance

Cash and Cash Equivalents

The City's cash and cash equivalents includes amounts on hand and in demand deposits.

Investments

State statutes and the City's investment policy authorize the City to invest in obligations of the U.S. Treasury, State of Texas obligations, certificates of deposit, commercial paper, corporate bonds, repurchase agreements, and mutual funds.

Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at year-end are referred to as either "Due to/from Other Funds" (i.e., the current portion of the interfund loan) or "Advances to/from Other Funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "Due to/from Other Funds."

Property Taxes Receivable are shown net of an allowance for uncollectibles. The allowance is equal to zero (0) percent of delinquent property taxes receivable at December 31, 2024. The City's ad valorem taxes are levied on October 1 but do not become due until January 1 of the following year. Taxes become past due February 1 and become delinquent June 30. The City's taxes become a lien on real property on the due date of January 1. This lien is effective until the taxes are paid.

Prepaid Expenses

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid in both the government-wide and fund financial statements.

Long-Term Liabilities

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

In the fund financial statements, governmental fund types report the face amount of the debt issued as Other Financing Sources and debt payments as Expenditures.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance-continued

Capital Assets

Capital assets, which include land, buildings, equipment, and infrastructure (roads and bridges), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets, other than infrastructure, are defined by the City as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one (1) year. Such assets are recorded at historical cost where records are available or at an estimated fair market value at the date of acquisition where no historical records exist. Donated capital assets are recorded at estimated fair market value at the date of donation. The City reports infrastructure assets on a network and subsystem basis. Accordingly, the amounts spent for the construction or acquisition of infrastructure assets are capitalized and reported in the government-wide statements regardless of their amount.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings, equipment, and infrastructure of the City are depreciated using the straight-line method over the following estimated useful lives:

| <u>Assets</u> | <u>Years</u> |
|---------------------------|--------------|
| Building and improvements | 15 - 39 |
| Infrastructure | 20 |
| Machinery and equipment | 7 |
| Vehicles | 5 - 10 |

In the case of initial capitalization of general infrastructure assets (i.e., those reported by the governmental activities), public domain property including roads, bridges, curbs and gutters, streets and sidewalks and similar assets prior to December 31, 2021 have not been capitalized by the City. Additional capital assets, constructed or acquired each period subsequent to December 31, 2021, are capitalized and reported at historical cost.

Fund Balance Classification

The City has implemented GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions." This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent. The following classifications describe the relative strength of the spending constraints:

Nonspendable fund balance – amounts that are not in spendable form (such as inventory) or are required to be maintained intact.

Restricted fund balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

Committed fund balance – amounts constrained to specific purposes by the City Council, using its highest level of decision-making authority. To be reported as committed, amounts cannot be used for any other purpose unless the City Council takes the same highest-level action to remove or change the constraint.

Assigned fund balance – amounts the City Council intends to use for a specific purpose. Intent can be expressed by the Mayor or the City Secretary, through which the City Council has delegated the authority.

Unassigned fund balance – amounts that are available for any purpose. Positive amounts are reported only in the general fund.

The City Council establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). When it is appropriate for fund balance to be assigned, the City Council designated the authority to the Mayor and the City Secretary (such as the purchase of fixed assets, construction, debt service, or for other purposes).

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, followed by committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2024**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance-continued

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period(s) and thus, will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position and or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Accordingly, items are unavailable revenue, and are reported only in the governmental funds balance sheet. The amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Stewardship, Compliance, and Accountability

Budgetary Data

An annual budget is adopted on a basis consistent with generally accepted accounting principles for the general fund. The City holds a public hearing on the proposed budget prior to its adoption. All appropriations lapse at fiscal year-end.

The budget is legally enacted and once approved, can only be amended by approval of a majority of the Council members. Amendments are presented to the Council at its regular meetings.

Expenditures in Excess of Budgeted Amounts

The following is a summary of expenditures in excess of appropriations for the General Fund:

| <u>Department</u> | <u>Expenditures</u> | <u>Budget</u> | <u>Variance</u> |
|-------------------|---------------------|---------------|-----------------|
| Debt service | \$ 38,576 | \$ 31,755 | \$ (6,821) |

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2: DETAILED NOTES ON ALL FUNDS

Deposits

The City's balances were completely covered by federal deposit insurance or collateralized at December 31, 2024. The City's deposits are categorized to give an indication of the level of risk assumed by the City at fiscal year-end. The categories are described as follows:

Category 1 - Insured or collateralized with securities held by the City or by its agent in the City's name.

Category 2 - Collateralized with securities held by the pledging financial institution's trust department or agent in the City's name.

Category 3 - Uncollateralized.

Deposits categorized by level of risk for cash and cash equivalents are as follows:

| Cash & Cash Equivalents | Bank Balance | Category | | | Carrying Amount |
|------------------------------------|-------------------------|-------------------|------------------|-------------|----------------------------|
| | | 1 | 2 | 3 | |
| General fund | \$ 268,090 | \$ 250,000 | \$ 18,090 | \$ - | \$ 268,090 |

NOTE 2: DETAILED NOTES ON ALL FUNDS – continued

Investments

The City is required by The Public Funds Investment Act (“Act”) to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit.

The Act requires an annual audit of investment practices. Audit procedures in this area conducted as a part of the audit of the basic financial statements disclosed that in the areas of investment practices, management reports, and establishment of appropriate policies, the City did adhere to the requirements of the Act.

The Act determines the types of investments which are allowable for the City. These include, with certain restrictions, (1) obligations of the U.S. Treasury, U.S. agencies, and the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) securities lending program, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, and (10) commercial paper.

The City’s certificates of deposit are entirely covered by federal depository insurance (FDIC) or by collateral held in a multiple financial institution collateral pool administered by the State. The FDIC currently insures the first \$250,000 of the City’s deposits at each financial institution. Deposit balances over \$250,000 are insured by the collateral pool. As of December 31, 2024, the carrying amount of the City’s certificates of deposit was \$156,528.

Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; injuries to employees; and natural disasters for which the City carries commercial insurance. There have been no significant reductions in insurance coverage during the year ending December 31, 2024.

The City is a member of the Texas Municipal League (TML) Intergovernmental Risk Pool, a public entity risk pool, participating in workers’ compensation, general liability, law enforcement liability, errors and omissions liability, automobile liability, automobile physical damage, real and personal property coverage, and employee health insurance.

Related Parties

In the ordinary course of business, the City has and expects to continue to have transactions with its employees and elected officials. In the opinion of management, such transactions were on substantially the same terms, including interest rates and collateral, as those prevailing at the time of comparable transactions with other persons and did not involve more than a normal risk of collectability or present any other unfavorable features to the City.

Contingent Liabilities

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the state and federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial. No reportable litigation was pending against the City as of December 31, 2024.

Long-Term Liabilities

Obligations currently outstanding and reported as liabilities of the City are comprised of the following:

| Governmental Activities | Maturity Date | Interest Rate | Original Amount | Yearend Balance |
|--|----------------------|----------------------|------------------------|------------------------|
| Note Payable - Excess Highway Fines | 7/31/2026 | 0.00% | \$ 59,502 | \$ 20,826 |

Subscription-Based Information Technology Arrangements

The City implemented Governmental Accounting Standards Board Statement No. 96, *Subscription- Based Information Technology Arrangements*, in fiscal year 2023. The City has three (3) software arrangements that require recognition under GASBS No. 96. The software amortization expense is included on the Statement of Revenues, Expenses and Changes in Fund Net Position related to the City's intangible asset of five software systems, which is included in the capital assets table as Intangible Right-to-Use Software Arrangements.

The City recognizes subscription-based information technology arrangement (SBITA) liabilities and intangible right-to-use assets for software as follows:

The Fund View municipal court software arrangement is a one-year agreement, initiated in fiscal year 2023 with an annual payment of \$3,724. At the inception, the City has used a 7.50% interest rate for this arrangement based on the prime rate as publish by the Wall Street Journal. The City has an option to extend this arrangement for 12 additional months and is likely to exercise that option for two (2) additional years. There is no option to purchase the software.

The Kologik / COPsync public safety software arrangement is a one-year agreement, initiated in fiscal year 2023 with an annual payment of \$2,220. At the inception, the City has used a 7.50% interest rate for this arrangement based on the prime rate as publish by the Wall Street Journal. The City has an option to extend this arrangement for 12 additional months and is likely to exercise that option for two (2) additional years. There is no option to purchase the software.

The QuickBooks accounting software arrangement is a one-year agreement, initiated in fiscal year 2023 with an annual payment of \$1,620. At the inception, the City has used a 7.50% interest rate for this arrangement based on the prime rate as publish by the Wall Street Journal. The City has an option to extend this arrangement for 12 additional months and is likely to exercise that option for two (2) additional years. There is no option to purchase the software.

Texas Municipal Retirement System Plan

Plan Description – The City participates as one of 940 plans in the defined benefit cash-balance plan administered by the Texas Municipal Retirement System (TMRS). TMRS is a statewide public retirement plan created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for employees of Texas participating cities. The TMRS Act places the general administration and management of TMRS with a six-member, Governor-appointed Board of Trustees; however, TMRS is not fiscally dependent on the State of Texas. TMRS issues a publicly available Annual Comprehensive Financial Report (Annual Report) that can be obtained at tmrs.com.

All eligible employees of the City are required to participate in TMRS.

Benefits Provided – TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the city, within the options available in the state statutes governing TMRS.

At retirement, the Member's benefit is calculated based on the sum of the Member's contributions, with interest, and the city-financed monetary credits with interest. The retiring Member may select one of seven monthly benefit payment options. Members may also choose to receive a portion of their benefit as a lump sum distribution in an amount equal to 12, 24 or 36 monthly payments, which cannot exceed 75% of the total Member contributions and interest.

Plan provisions for the City were as follows:

| Plan Year | 2023 | 2022 |
|--|------------|------------|
| Employee deposit rate | 5% | 5% |
| Matching ratio (City to employee) | 1 to 1 | 1 to 1 |

Employees covered by benefit terms:

At the December 31, 2023 valuation and measurement date, the following employees were covered by the benefit terms:

| | |
|--|------------------|
| Inactive employees or beneficiaries currently receiving benefits | 0 |
| Inactive employees entitled to but not yet receiving benefits | 13 |
| Active employees | <u>2</u> |
| Total | <u><u>15</u></u> |

Contributions – Member contribution rates in TMRS are either 5%, 6% or 7% of the member’s total compensation, and the city matching percentages are either 100%, 150% or 200%, both as adopted by the governing body of the city. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The city’s contribution rate is based on the liabilities created from the benefit plan options selected by the city and any changes in benefits or actual experience over time.

Employees for the City were required to contribute 5% of their annual gross earnings during the fiscal year. The contribution rates for the City were 1.52% and 2.17% in calendar years 2023 and 2024, respectively. The City’s contributions to TMRS for the year ended December 31, 2024 were \$336, and were equal to the required contributions.

Net Pension Liability – The City’s Net Pension Liability (NPL) was measured as of December 31, 2023, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

Actuarial assumptions:

The Total Pension Liability in the December 31, 2023 actuarial valuation was determined using the following actuarial assumptions:

| | |
|---------------------------|--|
| Inflation | 2.5% per year |
| Overall payroll growth | 2.75% per year, adjusted down for population declines, if any |
| Investment rate of return | 6.75%, net of pension plan investment expense, including inflation |

Salary increases are based on a service-related table. Mortality rates for active members are based on the PUB(10) mortality tables with the Public Safety table used for males and the General Employee table used for females. Mortality rates for healthy retirees and beneficiaries are based on the Gender-distinct 2019 Municipal Retirees of Texas mortality tables. The rates for actives, healthy retirees and beneficiaries are projected on a fully generational basis by Scale UMP to account for future mortality improvements.

Actuarial assumptions – continued:

For disabled annuitants, the same mortality tables for healthy retirees is used with a 4- year set-forward for males and a 3-year set-forward for females. In addition, a 3.5% and 3.0% minimum mortality rate is applied, for males and females respectively, to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by Scale UMP to account for future mortality improvements subject to the floor.

The actuarial assumptions were developed primarily from the actuarial investigation of the experience of TMRS over the four-year period from December 31, 2018 to December 31, 2022. They were adopted in 2023 and first used in the December 31, 2023 actuarial valuation. The post-retirement mortality assumption for healthy annuitants and Annuity Purchase Rate (APRs) are based on the Mortality Experience Investigation Study covering 2009 through 2011 and dated December 31, 2013. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined by best estimate ranges of expected returns for each major asset class. The long-term expected rate of return is determined by weighting the expected return for each major asset class by the respective target asset allocation percentage. The target allocation and best estimates of the expected return for each major asset class in fiscal year 2023 are summarized in the following table:

| Asset Class | Target Allocation | Long-Term Expected Real Rate of Return (Arithmetic) |
|----------------------------------|------------------------------|--|
| Global Equity | 35.00% | 7.70% |
| Core Fixed Income | 6.00% | 4.90% |
| Non-Core Fixed Income | 20.00% | 8.70% |
| Other Public and Private Markets | 12.00% | 8.10% |
| Real Estate | 12.00% | 5.80% |

Discount rate:

The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

Postemployment Benefits Other Than Pensions (OPEB): Supplemental Death Benefits Fund

Plan Description – The City also participates in the cost sharing multiple-employer defined benefit group-term life insurance plan operated by TMRS known as the Supplemental Death Benefits Fund (SDBF). The City elected by ordinance to provide group-term life insurance coverage to both current and retired employees. The City may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1.

Benefits Provided – The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death); retired employees are insured for \$7,500; this coverage is an "other postemployment benefit," or OPEB.

Employees covered by benefit terms:

At the December 31, 2023 valuation and measurement date, the following employees were covered by the benefit terms:

| | |
|--|----------|
| Inactive employees or beneficiaries currently receiving benefits | 0 |
| Inactive employees entitled to but not yet receiving benefits | 1 |
| Active employees | 2 |
| Total | <u>3</u> |

Contributions – The City contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to pre-fund retiree term life insurance during employees' entire careers.

Compliance and Internal Control

DAVID K. GODWIN
CERTIFIED PUBLIC ACCOUNTANT, PLLC

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Mayor and Members of City Council
City of Caney City, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Caney City, Texas (City), as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated July 10, 2025.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported *Government Auditing Standards*.

City of Caney City, Texas's Response Prior to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the City's responses to the findings identified in our audit and described in the accompanying schedule of findings and responses. The City's responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
